

LEND A 'HAND' TO SAVE THE 'LAND'

We say that we are progressing,
But our resources are diminishing.

Broken bottles and charred pieces of glass,
Wadded up newspapers tossed on the grass,
Pouring of concrete and tearing of trees.
This is the environment that surrounds me?

Poisons and insecticides sprayed on our food,
Oceans filling with thick oil crude,
All sea life destined to a slow, awful doom.
These are the things we are to consume?

Mills pumping out iron, expelling yellow fumes,
Airlines emitting caustic gases from fuels,
Weapons of destruction tested at desolate sites.
And this is the air that's to sustain life?

There has to be something that we can do,
Like raise the awareness to those around you.

Let's make our environment clean,
Say goodbye to polythene.
Don't throw here and there,
Wastes, garbage and rags,
Use earthen pots and paper bags.

Reduce the use of natural resources,
And also the use of armed forces.
Let us reduce global warming,
To make our earth charming.

Let's make our Earth clean,
and also make it green.
Each one plant one more tree,
To make our Earth pollution free.

We need to walk hand in hand.
Need to put Mother Earth on the safety band.
'Save your Mother' do your part.
Before its time to go to the Lord.
